1. Regarding applicants comments in the response of 2/16/07, the amending of claim 21 in the amendment of 8/21/05 broadened the scope of the claim because it removed sequences encoding the signal peptide (aka the claim went from an antibody with signal sequences to an antibody without signal sequences). The antibody of Anderson et al. (1991) did not include the signal sequences present in the claim prior to amendment and thus did not constitute art until said signal sequences were removed from the claim.

2. In view of the papers filed 3/29/07, the inventorship in this nonprovisional application has been changed by the deletion of John E. Leonard.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. The rejection of Claims 21,26,29-32,41-43,45-48,51-58,60-62,68-72 under the judicially created doctrine of obviousness-type double patenting as being unpatentable

over claims 1-6 of U.S. Patent No. 5,736,137 is withdrawn in view of the TD filed 3/29/07 and the cancellation of claims that have been cancelled.

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. The rejection of claims 41,43,45-48,51-57,69 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement for the reasons elaborated in the previous Office action is withdrawn in view of the cancellation of claims that were cancelled and the amended claims.

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

8. The rejection of claims 41,43,45-48,51-57,69 under 35 U.S.C. 102(b) as being anticipated by Anderson et al. (US Patent 5,736,137) for the reasons elaborated in the previous Office Action is withdrawn in view of the cancellation of claims that have been cancelled and the amended claims.

9. The rejection of claims 21,26,41,42,58,59,69,70 under 35 U.S.C. 102(a) as being anticipated by Anderson et al. (1991) is withdrawn in view of the Anderson declarations filed 3/29/07 and applicants arguments.

10. Claims 21,26,42,47,48,51-53,58,59,70-72 are allowed.
